NOTE: Your remittance must accompany all orders unless you have a credit balance on your account. The club treasury does not have enough operating capital to bill you for your coins after we ship them to you. Only through a system like this can we offer members coins and books at a savings over what they would have to pay if buying them through a regular dealer. No exceptions can be made to this rule as there just isn't that much spare money in the club treasury.

ALL ORDERS FOR THE ABOVE COINS & BOOKS MUST BE IN BY APRIL 22nd.

MARCH MEMBERSHIP APPLICATIONS: Members #218-223 published in the March Bulletin have been admitted to membership.

* * * * *

MEMBERSHIP DRIVE: At the March meeting a tape recording from Honorary Life Member Matthew J. van der Voort of Amsterdam was played. Matthew has challenged the membership of NI to sign up 25 or more new members by the December meeting of this year. If the NI membership can sign up these 25 new members (excluding members signed up by Matthew himself), he will donate \$25.00 to the club treasury. Let's all get to work now and see that Matthew has to dig down into his pocket come December and donate the \$25.00 - - the treasury needs it.

"COMMITTEE TO RESEARCH WORLD COINAGE TYPES & VARIETIES" ASSISTANCE REQUEST: Project coordinator, Marvin L. Fraley, 4915 W. Stanford Ave., Dallas, Texas 75209, is requesting assistance from the club members on the following listings of GREECE:

Yeoman Nos. 5, 6, 7, 8, A14, B14, C14 and D14.

The dates listed in the Seventh Edition Yeoman for the above issues are erroneous. It is a known fact that some of the Young Head issues (Y5-8) exist dated as late as 1883. I am trying to make up a correct date list for the Young Head and the Older Head issues. Every NI member's assistance is requested on this. Please check your collection of these items and send me a list of the ones you have denoting whether they are Young head or Older head. You can easily tell the difference as the Older head has a moustache and the Young head doesn't. Remember -- EVERY ONE'S ASSISTANCE IS URGENTLY NEEDED.

Bulletin Editor's Note:

A new edition of Whitman's White Book - "Current Coins of the World" is due to be released this year. You will note that some of the numbers above do not follow the other Yeoman numbers and subsequently numbered issues of the "Journal" numerically. My guess is that the newly assigned numbers appearing in the "Journal" now are in conjunction with the format of the Second Edition of Current Coins. If member Holland Wallace, Associate Editor at Whitman, will confirm this to us, we will furnish more information in the May Bulletin.

FIRST PORTRAITS OF RULERS ON COINAGE

by K. T. "Ed" EDWARDS

According to A. H. Quiggin, in her interesting book, "The Story of Money", Alexander the Great was the first ruler to be honored by having his portrait on a coin. After Alexander's death, his trusted General, Lysimachus, King of Thrace, issued silver tetradrachmas bearing the portrait of Alexander, shown with the ram's horns of the Egyptian God Ammon.

Another General of Alexander's claims the honor of being the first living ruler portrayed on a coin. This was Ptolemy I of Egypt, about 300 B.C.

In Europe the first ruler so honoring himself was Demetrius, King of Macedon, 290 B.C.

AUTHORS IN NUMISMATICS INTERNATIONAL: In the February 1968 issue of the Bulletin, we listed the known authors of numismatic publications who are members of NI. This month we welcome another. It is a pleasure to have Rev. Arthur Braddan Coole to the NI group. His recent books are:

Coins in China's History -- Now in its Fourth Edition

Encyclopedia of Chinese Coins - Volume 1

The latter book is the first of several volumes on the Coinage of China. When all volumes are completed, it will be the most complete and comprehensive work available in this area of numismatics.

EGYPTIAN REGNAL DATES

NI member Holland Wallace has compiled the following list of known regnal dates for EGYPT Y-1 through F22, and would like the aid of other members in confirming additional dates. This list will eventually form the basis of a detailed study, and inclusive dates will be given in the Brown Book. (He is also interested in trading for pieces not on the list.) He points out that most or all of Y-1 through F11, 18a through B17, and A22 through E22 were struck at Cairo, and no statistics are currently available. He has not had time to study gold issues, but would like to get reports of pre-Modern World Coins pieces here as well.

You can help by reporting any dates and significant varieties not listed below. Please give a reference source in case further checking is needed. If the coin is in your collection, please indicate whether you are willing to lend it for photographic purposes if desired. Reports received by May 15 can be incorporated into the next edition of Modern World Coins. Send reports to:
